Catapult Group	Human Relations	1
AGD - Illinois	Human Relations	6
Catapult	Human Relations	1

65 hours equals 10.8 full classroom days

INTERESTING FACTS ABOUT DR. JONES` CONTINUING EDUCATION

Dr. Jones has recorded 1056.25 total hours of AGD approved dental continuing education since 1989.

However, Dr. Jones graduated Northwestern University Dental School in 1978.

Although Dr. Jones DID belong to the American Dental Association between 1978 and 1989, he did not join the AGD, (Academy of General Dentistry) until 1989. Unfortunately, the American Dental Association does not record continuing education, but AGD does.

Therefore, his considerable continuing education between 1978 and 1989 was not recorded, but Dr. Jones states that period of time was when he did some of his most concentrated amounts of continuing education. He jokes, "I was young and that`s when I really needed it." He recalls driving all over the Midwest and specifically to Chicago at least 22 times and flying to courses in Houston 3 days, Dallas 3 days, Tampa 3 days, and San Francisco 4 days.
